Setting a New Standard in Wildland Firefighting

Design Features: 902 Jacket

- Strategic panelling that's ergonomically shaped for wearer comfort and ease of movement; underneath the arm and the sleeve at the elbow area
- Concealed front zip closure covered by a storm flap
- Adjustable collar tab for better fit.
- High shaped mandarin collar for better comfort and protection, collar folds down, secured by loops without interfering with the radio loops.
- Thumb loop to stop sleeving riding up when arms are extended, features elastic attachment for ease of movement
- Adjustable cuff tabs for better fit and to prevent the entry of burning debris and provide secure closure with gloves
- Vertical welt pocket on right side as worn for survey maps
- One chest bellow radio pocket on right hand side as worn, adjustable for different radio heights, flaps can accommodate radio antennas at both sides, pockets above top reflective tape
- Shoulder reinforcement over main fabric for added comfort when wearing backpacks
- Stitched ventilation holes under each armpit
- Two microphone loops in reinforced fabric at upper chest
- Double layer of fabric in the elbow area for added protection
- Two large 200mm wide lower box pockets with expansion pleats and dual drainage holes. Each pocket has a flap secured by Velcro®
- Water bottle pocket with elasticated opening suitable for 600ml water bottle on left hand side as worn
- Internal garment pockets for mobile phone, notepad and pen
- Internal pocket for RFID chip
- Epaulette holders on each shoulder panel
- Pen pocket underneath the storm guard
- Extended hem at the back to ensure full coverage of the lumbar region when bending
- Rank slider on stormguard
- Adjustable torch loop
- Storm guard secured using spot Velcro® closure for better closure system
- Reinforcement fabric at cuff hem for better abrasion resistance
- Industrial wash, flame retardant sew-on reflective tape, attached with twin needle stitching for added strength, 50mm wide
- Twin needle structural seams for added strength
- Main zip attached to zip carrier for easier repair
