

Holmatro OmniShore Advanced Trench Shoring - Pneumatic Set AT-PS1

Exceptional Shoring Power | Ready to Secure Safety

Product Overview

OmniShore set for large trenches and basic spot shores.
With expansion sets also suitable for T-trench, L-trench, vehicle stabilisation, lifting and high directionals.

Designed to Save Weight and Space on your Truck

- One single system for all shoring operations
- Build any application with a system of only six different struts
- Construct lengths up to 17 ft / 5.2 m with only five different struts
- No fixed length extensions needed – Each strut also functions as an extension pipe

Quick and Easy Setup

- Every strut can be connected to every other strut thanks to the patented Trident Coupler
- Each accessory fits on both ends of all the struts
- No accurate measurement needed – Two connected struts offer you twice the plunger stroke

Maximum Safety

- All strut combinations are allowed and safe – The patented Trident Coupler only allows you to connect two struts max
- Strongest struts in the market – Rigorously tested in multiple setups
- Holmatro developed OmniShore according to the criteria of testing used by FEMA's US&R Structures Sub Group to evaluate similar type shoring
