

Holmatro OmniShore Basic Vehicle & Structural Shoring - Pneumatic Set VS-PS1

Exceptional Shoring Power | Ready to Secure Safety

Product Overview

OmniShore set for vehicle stabilisation and basic spot shores. With expansion sets also suitable for lifting and high directionals.

Designed to Save Weight and Space on your Truck

- One single system for all shoring operations
- Build any application with a system of only six different struts
- Construct lengths up to 17 ft / 5.2 m with only five different struts
- No fixed length extensions needed – Each strut also functions as an extension pipe

Quick and Easy Setup

- Every strut can be connected to every other strut thanks to the patented Trident Coupler
- Each accessory fits on both ends of all the struts
- No accurate measurement needed – Two connected struts offer you twice the plunger stroke

Maximum Safety

- All strut combinations are allowed and safe – The patented Trident Coupler only allows you to connect two struts max
- Strongest struts in the market – Rigorously tested in multiple setups
- Holmatro developed OmniShore according to the criteria of testing used by FEMA's US&R Structures Sub Group to evaluate similar type shoring
