

Holmatro

Battery PBPA288

Purpose-built Battery | Pentheon Technology

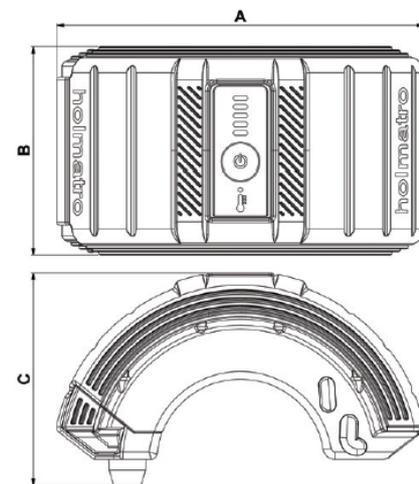

Product Overview

Purpose-built battery with high capacity. Designed for extended working time. Suitable for powering Pentheon tools and OmniLock shoring equipment.

Key Features

- **Contains extra powerful and large cells:** as these cells heat up less quickly, you can keep working with your tool while continuously using the maximum battery power.
- **Realtime feedback on battery temperature and state of charge:** direct feedback, no need to press a button first.
- **Suitable for on-tool battery charging:** charge the battery while it remains on the tool. Simply connect your tool to the charger. The battery on the tool has priority over the one on the charger.
- **Waterproof:** suitable for under water use, also in salty water, battery can be changed under water
- **Safe:** although the battery contains an integrated on/off switch for the tool, there isn't any voltage on the contacts until it registers a connection with the tool. So you can put it in a puddle of water without any consequences.

Specifications		
Article number		151.004.490
Model		PBPA288
Short description		Battery
Capacity	Ah	8
Energy	Wh	202
Charging time	min.	69
Minimum battery life	cycles	500
Protection rate		IP68
Battery type		Li-Ion
Voltage	VDC	28
Weight, ready for use	kg	1.6
Temperature range	°C	-20 +55
Dimensions (AxBxC)	mm	188 x 107 x 110
