

Spencer NEXTEP

Evacuation Chair With Electric Tracks

Product Overview

The NEXTEP is a powered chair designed for stair evacuation and climbing. Its powered tracks make sure you can transport the mobility impaired in a controlled, safe and effortless way.

Made of aluminium alloy, NEXTEP is a lightweight device that can be used by a single operator. The headrest can be adjusted to the patient's height and is fitted with a very intuitive control panel with LED lights and a stop button to activate in case of need.

2 foldable rear handles and 2 extendable front handles help evacuating patients even in narrow spaces. Thanks to its 4 wheels made of rubber, NEXTEP can easily slide on a flat surface.

Key Features

- Fitted with powered tracks, NEXTEP can climb upstairs and down stairs in a controlled and safe way
- It can be used by a single operator
- It is foldable, compact and lightweight
- Made in aluminium alloy with black ABS seat and backrest
