

De-Wipe Decontamination Wipes

Wipe it Off, Don't Take it Home

Product Overview

De-Wipe's decontamination wipes are scientifically proven to eliminate harmful, cancer-causing toxins and pollutants from skin.

Key Features

- **Fights Contaminants:**
Helps to remove the risk of carcinogens and bacteria.
- **Instant Cleansing to Reduce the Risk:**
Suitable for hands, face, ears and areas around the neck and throat – plus wipe down any contaminated areas.
- **Scientifically Formulated & Proven:**
Key ingredients defend against harmful dioxins and polycyclic aromatic hydrocarbons (PAHs).
- **100% Biodegradable:**
Australasia's only 100% biodegradable decontamination wipe keeping you green

Why Not Just Use a Regular Wipe?

Construction and utilities workers are exposed to carcinogenic pollutants. These pollutants can be hydrophobic. Regular alcohol wipes can irritate rather than cleanse. Alcohol opens skin pores increasing the chance of pollutants being absorbed.
