Advanced Trauma Dressings

Advanced Trauma Care Solutions

TraumaFix™ delivers a comprehensive range of advanced trauma dressings engineered to meet the critical needs of emergency responders. Designed to stabilise casualties before the arrival of emergency services, TraumaFix™ products offer rapid, reliable solutions to control major bleeding and improve survival outcomes.

Military, police, emergency response, or remote field care
- if you only carry one brand, make it TraumaFix™.

TraumaFix™ Trauma Dressings

Effective Bleed Control with One-Handed Application

New and improved Sterile dressing designed for major bleed trauma.

Key Features:

- Integrated Pressure Pad:**
Features a large dressing with stitched in pressure pad, combined with a pressure bandage to stop severe bleeding quickly.
- User-Friendly Design:**
15cm x 220cm bandage with integrated hook and loop fastening dots to prevent unravelling.
- Vacuum-Packed for space-saving storage:**
Compact, easy-tear, single layer packaging is designed for quick application and for saving space.

TraumaFix™ Max Trauma Dressings

Sterile Dressing for Major Wounds

A new and improved sterile trauma dressing designed for major bleed trauma injuries, including abdominal wounds, head injuries, and amputations.

Key Features:

- Increased Pad Size:**
45cm x 35cm non-adherent pad to dress large wound areas.
- Secure Pressure Bandage:**
15cm x 220cm bandage with integrated hook and loop fastening dots to prevent unravelling.
- Vacuum-Packed for space-saving storage:**
Compact, easy-tear, single layer packaging is designed for quick application and for saving space.
