OUR CAPABILITY

Fire Rescue Safety Australia is a Bunzl organisation that runs parallel to those who strategically manage the emergency management process. We are professional equipment suppliers who provide expertise throughout the Asia Pacific region.

FRSA is a partner you can trust to provide the right advice and support throughout the entire emergency management cycle. Our team of professionals have strong backgrounds and expertise in varying disciplines of emergency response, providing exceptional levels of support around the clock when you need it most.

It is not by chance that FRSA has the best products in the world. We consistently seek new technology from leading manufacturers who develop innovative products that are often not yet seen in the Australian market. The chance to offer our customers advanced products that make a positive impact is a challenge we take very seriously. Here at FRSA, we know that any edge we can give our customers could ultimately save a life.

FRSA is a unique company with a holistic approach to our service. We offer unbiased advice, exceptional service, and back our products with a comprehensive maintenance program designed to ensure your investment is protected throughout its operational life.

Quality is the foundation of all products in the FRSA range. Our suite of products can assist emergency services in the following disciplines:

OUR VEHICLE EXTRICATION & SHORING CAPABILITY

When undertaking vehicle extrication scenarios, quality tools are vital to ensure efficiency and safety. At FRSA, we pride ourselves on our high quality products provided by our high quality suppliers. In the vehicle extrication scene, we have a long list of products that perform at the highest level and are compliant with all of the Australian and International Standards including AS/NZ and EN.

Cutters, spreaders, rams, and stabilisation tools are just some of the range of products FRSA can provide in the vehicle extrication scene.

This catalogue provides insight into our range, however our capability extends well beyond this list. For more information on the products in this catalogue or any other products in this discipline, contact FRSA.

OUR KEY BRANDS IN THIS SPACE:

BECAUSE THEY'RE WORTH IT.

Holmatro Pentheon Next-Gen Series

Advanced Connectivity

Transform your phone or tablet into an extension of your tools with the sophisticated MyHolmatro app. Simply connect Pentheon via Bluetooth® and the app will provide realtime tool insights such as battery state of charge and working pressure. Assisting you in getting the most out of every operation.

Bluetooth® connectivity contributes to keeping your tools in perfect working condition. The MyHolmatro app can quickly and easily perform an automated Self Check. The drive system, speed, pressure, and battery firmware, state of health and state of charge are assessed, to ensure the best rescue performance possible.

Unrivalled Performance

The next-gen series introduces a dual-mode operation, featuring a reduced speed training/demo mode alongside the high-speed Pentheon mode. The reduced speed setting is ideal for training scenarios, ensuring safety and skill development. The Pentheon mode provides full-speed operation for swift extrication in rescue situations.
