Corporate Profile

FRSA Corporate Profile

Fire Rescue Safety Australia (FRSA) is a Bunzl organisation that runs parallel to those who strategically manage the emergency management process. We are professional equipment suppliers who provide expertise throughout the Asia Pacific region.

FRSA is a partner you can trust to provide the right advice and support throughout the entire emergency management cycle. Our team of professionals have strong backgrounds and expertise in varying disciplines of emergency response, providing exceptional levels of support around the clock when you need it most.

We can assist you through all four phases of emergency management, with specialist equipment designed for the most demanding situations.

It is not by chance that FRSA has the best products in the world. We consistently seek new technology from leading manufacturers who develop innovative products that are often not yet seen in the Australian market. The chance to offer our customers advanced products that make a positive impact is a challenge we take very seriously. Here at FRSA, we know that any edge we can give our customers could ultimately save a life.

Unrivalled Service & Support

FRSA is a unique company with a holistic approach to our service. We offer unbiased advice, exceptional service, and back our products with a comprehensive maintenance program designed to ensure your investment is protected throughout its operational life. At FRSA, your needs are our number one priority!

FRSA Target Markets include, but are not limited to, the following market sectors:

| ■ Vehicle Extrication | ■ Rope Rescue |
| ■ Breathing Apparatus | ■ Search and Rescue |
| ■ HazMat | ■ Emergency Response Vehicles |
| ■ Confined Space | ■ Law Enforcement / Military |
| ■ Water Rescue | |

Project Solutions

FRSA offers a suite of services designed to assist the process of establishing an emergency response capability for your new project. Our staff will tailor a solution designed to address your project's risk profile.

Our consultative process is illustrated below.

Our project solutions are centred around three core areas, with the ultimate goal of providing you with a first-class emergency response capability. These core areas are:

Emergency Infrastructure

Design and project management of key infrastructure such as medical clinics, emergency response stations, training rooms, and on-site equipment service centres.

Emergency Vehicles

Design, supply, and commissioning of all onsite emergency vehicles including ambulances, fire appliances, and rapid intervention vehicles.

Emergency Equipment

Consultancy and supply of all types of emergency response equipment.

Appliance Supply and Management

FRSA has the expertise and capability to design, project manage, coordinate and deliver turn key solutions for all types of emergency vehicles and their stowage requirements. Whether it is a capital purchase or leasing is your preference, our team can create a bespoke project solution, to meet your requirements.

It's a true 'single source solution'

Alliance Partners

Our alliance partners are global leaders in innovation and quality and are setting new benchmarks in the Emergency Services Industry.

Holmatro

Creators of the most advanced and effective hydraulic road crash rescue tools on the market.
